GABRIELLE DAVIS

@lmgabrielle_davis

Entrepreneur, Model, & Disc Jockey are a few words many use to describe Gabrielle Davis. She gained her footing in the industry as a model and was signed to the prestige Pulse Jamaica modeling agency and landed her first major editorial campaign for a Britain's Daily Express Ad Campaign, making her the first Caribbean hand-picked petite model to cross over internationally from Jamaica.

The world became her runway as she walked for some of the largest Caribbean fashion shows across the region in Trinidad, Cayman, & Jamaica and independently pursued projects with top tier photographers, commercial brands and fashion designers, along with countless lead roles in many A-List celebrity music videos between Jamaica, Canada, Miami and LA

In 2018 she made her reality TV debut in VH1's Love & Hip Hop Miami season 1; being the first Jamaican native as a main cast member for an international reality show. After her season on the show, her passion for music got stronger which led her to discover her flow in the music world- now as DJ Gabby; a new addition to her long list of talents & skills.

The multi-hyphenate continues to grow in her Entrepreneurship, Modeling, Personality & now DJ-ing with an aim to use her platform to make an impact globally in a male dominated industry.
